CHIEF OF GDR MISSION IN HUNGARY PURGED BY SED -- Buenos Aires, Argentinisches Tageblatt, 31 Jan 51

Erich Kops (SED) has been relieved as chief of the German Democratic Republic's diplomatic mission in Hungary. According to SED circles in Berlin, Kops is suspected by the Central SED Party Control Commission of having committed "grave political errors" during his internment in France in 1943 and after he was turned over to the Gestapo. He is to undergo a party investigation soon.

Kops has been replaced by Stefan Heymann, former head of the SED Cultural Affairs Division.

SPECULATES ON EISLER'S ACTIVITIES -- Buenos Aires, Argentinisches Tageblatt,  
20 Feb 51

For quite some time Gerhart Eisler's activities have been surrounded by a strange silence. Since last spring, when he called for the capture of West Berlin, he has not spoken at any large public gatherings. It is likely that he will stage a comeback, but first he must undergo a political delousing process. The SED Bulletin, which is intended only for party members, publishes his "confession" that in 1927 and 1928 he openly attacked Stalin's German policy and tried to oust favorites of Stalin such as Thaelmann from Communist Party leadership. These are the sins for which Eisler must now do penance.
